

Candidates applying for Abbey Awards should be aware that, for the time being, a Covid 'Green Certificate' is required to access services and enter spaces throughout Italy, including the British School at Rome. Unfortunately, alternatives such as regular PCR testing are not valid for anyone undertaking a BSR residency.

A Covid Recovery Certificate is valid for 6 months (180 days) after infection, and is recognised as the equivalent of double vaccination within the country, but travellers on this certificate entering Italy would still be required to self-isolate on arrival.

This advice is for general information only; please ensure you are informed via the relevant government websites as there may be updates to the number of vaccinations necessary and/or any alternative health protocols:
